ESSE 2023

The 4th European Symposium on Software Engineering

CALL FOR PAPERS

December 1-3.2023 | Napoli, Italy

European Symposium on Software Engineering covers a broad spectrum of software-related topics. The conference covers fundamentals on designing, implementing, testing, validating and maintaining various kinds of software. It aims to provide an international forum for presentation of original research results, as well as exchange and dissemination of innovative and practical development experiences. Papers describing original work are invited in any of the software engineering areas that the Call for Papers considers.
